

include/constructioncard.h

```
graph TD; A[include/constructioncard.h] --> B[card.h]; B --> C[characteristic.h]; B --> D[string]; C --> D;
```

The diagram illustrates a set of file dependencies. At the top is a grey box labeled 'include/constructioncard.h'. A straight arrow points down from it to a white box labeled 'card.h'. From 'card.h', two arrows branch out: one straight arrow pointing down and to the right to a white box labeled 'characteristic.h', and one curved arrow pointing down and to the left to a white box labeled 'string'. Finally, a straight arrow points from 'characteristic.h' down and to the left to the 'string' box. All boxes have black borders, and all arrows are dark blue.
